The size of Posters should be less than A0 size (841mm, wide, x 1189mm, high) in the portrait orientation. They will be displayed for the whole duration of the conference on in the exhibition area. Put your poster up at least 19:30 prior to the start of the poster session on the Saturday evening and affix it to your assigned board with the materials provided.

To have mutual, deep public discussions between students/young scientists and lecturers to advance education in crystal growth fundamentals, we request each presenter to report the content of discussion points and questions which they got during the poster session. We are glad to help you to prepare English power point slides. Some lectures and tutors will extensively assist you how to prepare the slides. The final open discussion will be held on Tuesday evening and in the morning of the final day. A few best poster prizes will be awarded to those who presents an excellent poster and the report.

Committees of Poster Report and Poster:

Professor Shigeya Naritsuka, Professor Etsuro Yokoyama and Dr. Masayuki Kawasaki
